Content	Text Description	Behavior	Size
Settings	"Sync all settings" (default selection)	All settings on the system will be synchronized (default behavior)	"<size> MB"
	"Choose which settings to sync"	This will result in a drill down page (not listmaker/basket though) that lists out all the State registered manifests. The user will be able to select which ones, via checkbox, will sync.	
	"Don't sync settings"	No settings are synched
